

BMW Car Club of British Columbia

Annual Concours d' Elegance and BMW Heritage Celebration - Judging Guide

The objective of the Judging Guide is to provide the most uniform judging possible. Cleanliness and condition are the primary considerations in determining scores.

Our judging is based on an additive point system that totals 280 for a perfect car. There are three main areas to be considered for each car:

- Vehicle Interior..... 30% of score Max 84 points based on 12 items
- Vehicle Exterior..... 40% of score Max 112 points based on 16 items
- Engine Compartment.....30% of score Max 84 points based on 12 items

In addition to the points achieved by judging the cars are eligible for bonus points based on their age and mileage readings, as well as displaying a club member decal.

To aid in calculating bonus points, judges are asked to record the odometer reading of the car and confirm if the reading is in miles or kilometers.

Judges are encouraged to work on cars in teams of two, and to select the rating for each point area that is most appropriate for each car.

The possible points in each of the 40 areas on a car are rated on a scale of 0-7 points, where 7 points are assigned for perfect item. (See info below)

JUDGES SHOULD NOT SPEAK TO CONTESTANTS OR DISCUSS POINT BEING GIVEN TO ANY CAR.

Judges are allowed, however, to discuss difficult items among themselves in order to determine as a group the particular score an item should receive. This must be done out of hearing range of spectators and owners, however. If the team cannot reach a consensus, the team leader or Chief Judge should make the ultimate decision. The team leader may ask the owner a question, which may aid in the judging, but none of the team members should carry on a conversation with spectators or owners.

Judges may find that a preliminary assessment walk through of cars in the same judging class might be a useful way of determining relative points assignments for each car in a similar class, as older cars may be competing against newer models in some classes.

Each vehicle should be approached as a "280" point automobile. Then, up to eight points per item may be subtracted at the considered discretion of the Judges as follows:

Points assignment criteria

Use the following guide in assigning points for a give car.

No defect found	<input type="radio"/> 0 <input type="radio"/> 1 <input type="radio"/> 2 <input type="radio"/> 3 <input type="radio"/> 4 <input type="radio"/> 5 <input type="radio"/> 6 <input checked="" type="radio"/> 7
One minor defect	<input type="radio"/> 0 <input type="radio"/> 1 <input type="radio"/> 2 <input type="radio"/> 3 <input type="radio"/> 4 <input checked="" type="radio"/> 5 <input checked="" type="radio"/> 6 <input type="radio"/> 7
One substantial or several minor defects	<input type="radio"/> 0 <input type="radio"/> 1 <input type="radio"/> 2 <input checked="" type="radio"/> 3 <input checked="" type="radio"/> 4 <input checked="" type="radio"/> 5 <input type="radio"/> 6 <input type="radio"/> 7
Several substantial defects	<input type="radio"/> 0 <input type="radio"/> 1 <input checked="" type="radio"/> 2 <input checked="" type="radio"/> 3 <input checked="" type="radio"/> 4 <input type="radio"/> 5 <input type="radio"/> 6 <input type="radio"/> 7
The total item is poor	<input type="radio"/> 0 <input checked="" type="radio"/> 1 <input checked="" type="radio"/> 2 <input type="radio"/> 3 <input type="radio"/> 4 <input type="radio"/> 5 <input type="radio"/> 6 <input type="radio"/> 7
The total item is unacceptable or missing	<input checked="" type="radio"/> 0 <input type="radio"/> 1 <input type="radio"/> 2 <input type="radio"/> 3 <input type="radio"/> 4 <input type="radio"/> 5 <input type="radio"/> 6 <input type="radio"/> 7

Please ensure the cars odometer reading is recorded, and the unit (mile or km). Judges should not take the owners word for the odometer reading.

Once the judges have completed their assessments, score sheets are sent to the registration desk and the scores are totaled by computer for each of the three major areas. Bonus points are calculated by the computer based on information collected (mileage, model year, and member decal). Bonus points are maxed out at 20 points per car.
